Perhaps the most difficult aspect of performing aesthetic surgery is meeting the ever increasing demands of patient expectations. Plastic surgeons daily face the challenges of solving complex aesthetic problems with little margin of error, confronting the public perception of digital perfection with anatomic realities. Fortunately, techniques and technology have evolved to provide an array of options with the potential to produce greater aesthetic control and more predictable results. The theme of the 52nd Baker Gordon Symposium on Cosmetic Surgery is to examine those pragmatic solutions which produce elegant outcomes – What Works – in obtaining consistent outcomes and patient satisfaction in aesthetic surgery.

To help us explore solutions which lead to elegant results, we have scheduled six live surgery demonstrations by masters in aesthetic surgery. These demonstrations include: Face Lift with Lateral Rhytidectomy, Neck Lift with Facial Lipo Filling, Upper and Lower Blepharoplasty, Primary Open Rhinoplasty, Three-Dimensional Body Sculpting with Gluteal Augmentation, and Vertical Breast Reduction. We have also included several interactive video demonstrations focusing on options in cervical rejuvenation, including contouring the subplatysmal space and techniques for cervical contouring without a submental incision. Video demonstrations for the treatment of capsular contracture, implant malposition, high definition liposuction with gluteal augmentation and high definition abdominoplasty will be demonstrated.

The Keynote Lecture for the 52nd Annual Baker Gordon Symposium will be given by Dr. Alfredo Hoyos, from Bogota, Columbia. Dr. Hoyos is a pioneer in the sculptural aspects of liposuction, and has perfected the art of combining high definition contour through etching of the individual muscles of the torso in combination with autologous volume addition to enhance shape. Dr. Hoyos will share his sculptural innovations, as well as lecture on the application of these principals in high definition abdominoplasty and neoumbilicalplasty, presenting the concept of whether umbilical preservation limits the creation of shape in abdominoplasty.

In the tradition of the Baker Gordon Educational Symposium we have limited our faculty in an attempt to allow focus on interactive interchange between faculty, host and audience. The tradition of combining academic didactics with live demonstrations by masters in plastic surgery has always been the hallmark of the Baker Gordon Educational Symposium. Hopefully this year's meeting will continue our traditions of excellence in aesthetic surgery education.

THIS COURSE IS AVAILABLE TO PLASTIC SURGEONS AND THEIR RESIDENTS

Limited Registration

Accreditation/Designation

This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the American Society for Aesthetic Plastic Surgery, Inc. (ASAPS) and the Baker Gordon Annual Symposium. The American Society for Aesthetic Plastic Surgery, Inc. (ASAPS) is accredited by the ACCME to provide continuing medical education for physicians.

The American Society for Aesthetic Plastic Surgery designates this live activity for a maximum of 23.50 **AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Credit hours are subject to program changes.

Of the 23.50 credits, 7 credits have been identified as programming dedicated to patient safety related topics and will satisfy Patient Safety CME requirements.

Disclosure Policy

The American Society for Aesthetic Plastic Surgery requires all instructors, planners, and other individuals in a position to control or influence the content of an activity to disclose all relevant financial relationships or affiliations. All identified conflicts of interest must be resolved and the educational content thoroughly vetted by ASAPS for fair balance, scientific objectivity, and appropriateness of patient care recommendations. ASAPS also requires faculty/authors to disclose when off-label/unapproved uses of a product are discussed in a CME activity or included in related materials. Attendees providing comments or asking questions during presentations are also required to disclose all related commercial interests.

This program has been reviewed by the Educational Council and is officially Endorsed by the International Society of Aesthetic Plastic Surgery (ISAPS). Endorsement is not approval for Continuing Medical Education (CME) credit. The organizers may at their discretion provide separate CME credit.
